- Basics of Python
- Basics of HTML
- Basics of SQL

EXTRA CURRICULAR ACTIVITIES:

- Participated in Android Workshop.

PROJECT:

MAJOR PROJECT : STRATIFYING NEWS USING MCHINE LEARNING.
TEAM SIZE : 4

DESCRIPTION: News is an important role News is an important role for a number of reasons within a society. Mainly to inform the public about events that are around them and may affect them. In this regards, classify a set of news of different categories which may be Entertainment, Politics, Sports and Business is a good technique to capture public attention on the news. Multi-class classification makes the assumption that each sample (news headline) is assigned to one and only one class label: the news can be either an entertainment or a political but not both at the same time. The most abundant data in the world today is in the form of texts. That's why, having a powerful text-processing system is critical and is more than just a necessity. we will look at implementing a multi-class classification using BERT.

ACHIEVEMENTS:

Achieved Champions Book of World Records Certificate for formation of Women Symbol.

SKILLS & STRENGTHS:

- Self-Motivator.
- Proactive person.
- Having good Leadership skills
